1-9

# AUSSIE MATHS INVADERS

The Australian  made  
Tables and  
Number Facts Tutor

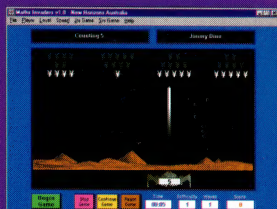

# AUSSIE MATHS INVADERS

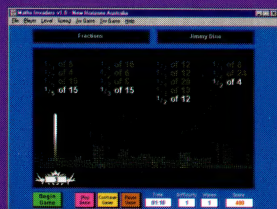

If your kids would rather eat brussel sprouts than learn their tables and number facts, Aussie Maths Invaders will take the dread out of their homework time. If they enjoy their maths, they'll love Aussie Maths Invaders.

The game is simple. Players repel waves of descending tables and number fact questions by answering them quickly and correctly. Speed, difficulty, and the type of question can be easily adjusted for any child.

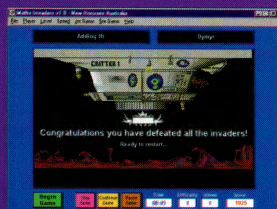

Aussie Maths Invaders can't help with the brussel sprouts, but imagine your kids looking forward to homework time!

Counting up to five

Fractions less than 30

Congratulations!  
All problems solved!
